

## Let's play 20 questions:

Go in order around the table asking questions to each person. For every correct answer player gets 1 candy. Player with the most candy at the end is the winner!

### RULES:

Players pick a category (People, Seder, Numbers, Hebrew) and you ask them a question from that category. The player gets 10 seconds to answer and then the question goes to the next player.

If the player gives the wrong answer you, as the Seeder leader, provide the correct answer. If the player does not give any answer the next player at the table has 10 seconds to answer AND they get their own question, and can earn 2 candies during their turn!
